Purpose:

The Deakin STEM Education team and 10 Geelong schools have undertaken a two year professional learning and research program to develop STEM teaching and leadership. We will share what we have learned, celebrate our successes and discuss the future of STEM education in Geelong region schools.

Agenda:

1. Welcome and introductory comments	Dr Linda Hobbs – Deakin School of Education
2. Bringing STEM to life in partner schools	Professor Christine Ure – Head of the Deakin School of Education
3. Snapshots from partner schools <ul style="list-style-type: none">• The professional learning cycle• Developing the STEM Vision• Sustainability and leadership• STEM pedagogies:<ul style="list-style-type: none">» Representations» Problem solving» Design and challenge based learning» Digital technology• STEM practices• Student outcomes• Teacher outcomes	A vignette from each of the 10 Geelong region partner schools
4. Presentation of certificates	
5. A regional STEM vision post 2017	Primary and Secondary school principals
6. Concluding remarks	
7. Refreshments and informal discussion
