Gordon WiFi Connection Guide – Windows 10

Document ID:	18	Category:	CIS
Collection:	Customer Knowledge	Subcategory:	Wireless Network
Last reviewed:	13/05/2021		

Checklist

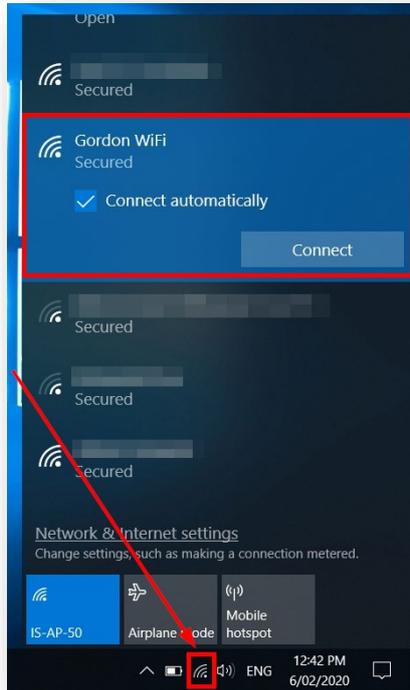

- ✓ You will require administrator rights on the PC in order to install the Aruba Quick Connect application.
- ✓ All other applications and windows on your device are closed.
- ✓ Your device has the correct date and time. If these details are incorrect, The Gordon WiFi will not work.
- ✓ You can login to PCs at The Gordon using your username and password.
- ✓ There is at least 10 MB free space on your hard drive.
- ✓ You are not running Windows 10 S Mode – in Windows 10 S Mode, you can only install apps from the Microsoft Store. Consult the [Microsoft Support page](#) for further assistance with disabling S Mode.

Please note the following:

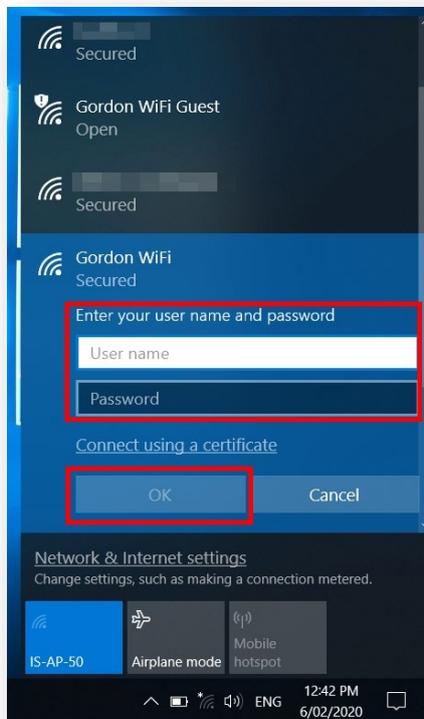

- ❖ Follow each step in this guide, and do not skip ahead.
- ❖ The below instructions may vary slightly between different devices and versions of Windows 10.

Windows 10 Connection Guide

1) Connect to **Gordon WiFi** through Network options.

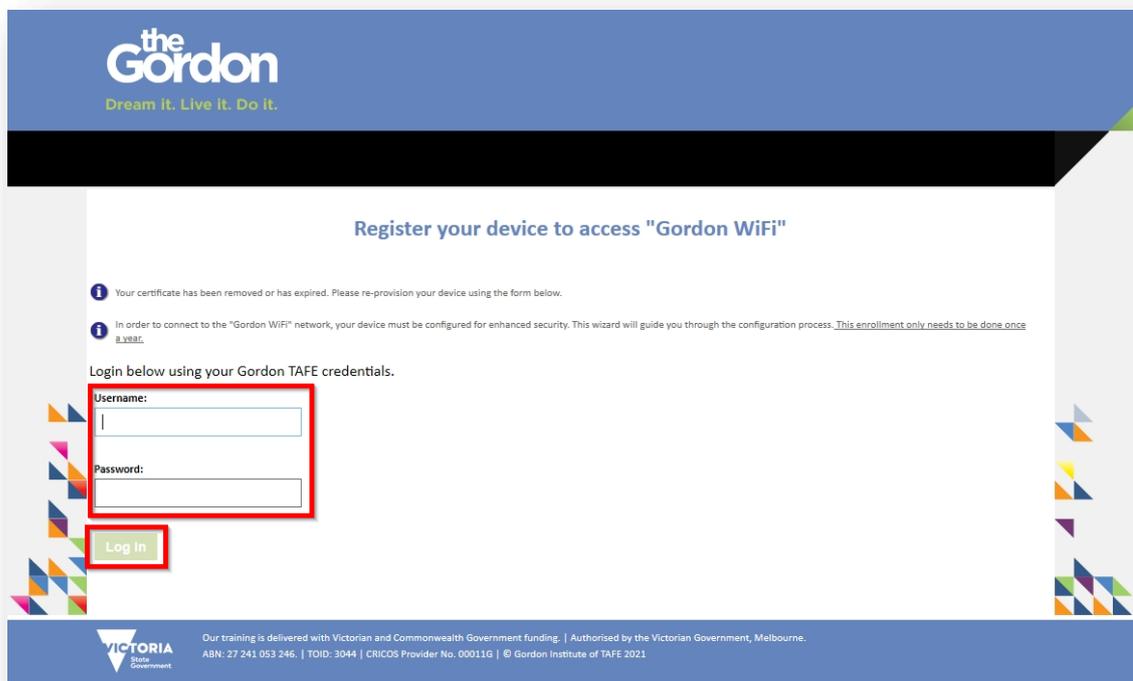

2) Enter your Gordon **User name** and **Password** and select **OK**.

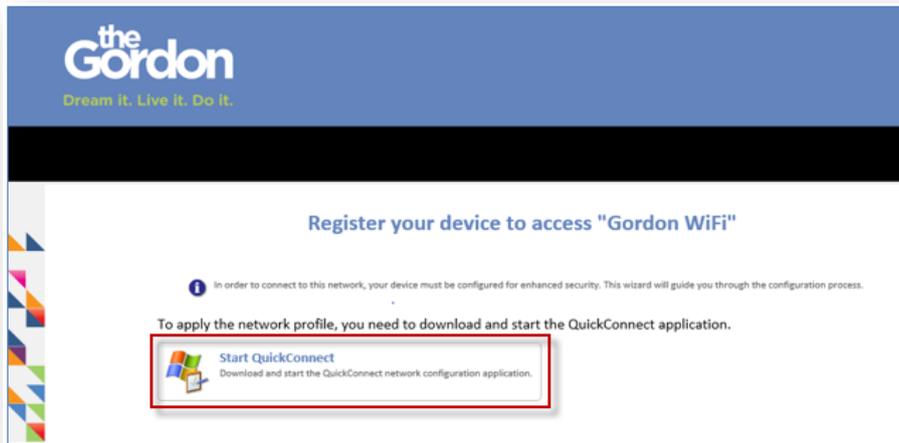

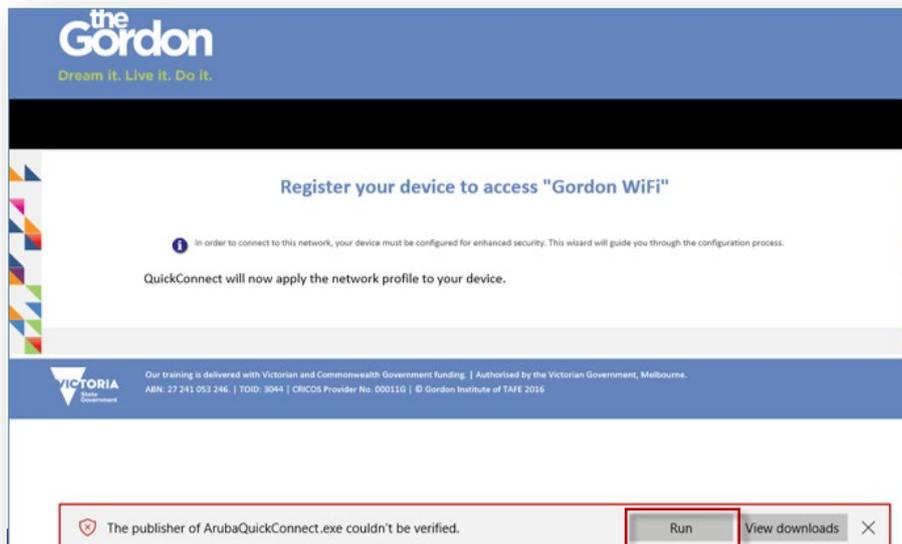

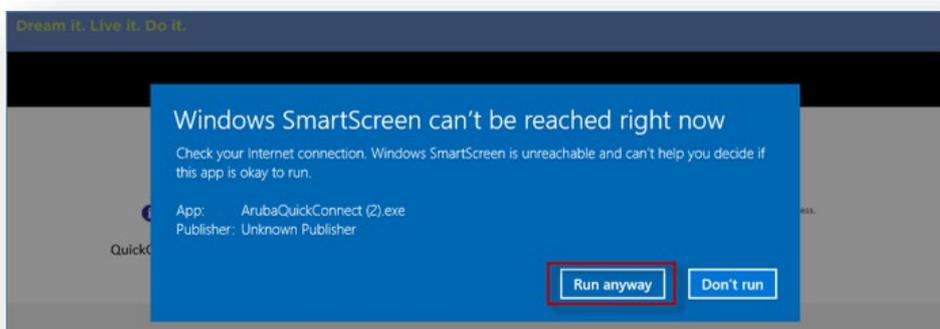

3) You will be asked if you want to **Continue Connecting?** Select **Connect**

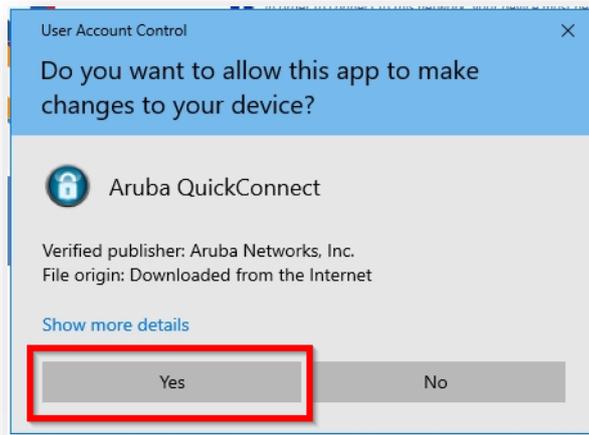

4) Your default browser will automatically open to the device registration page. Enter your Gordon **Username** and **Password** then **Log In**.

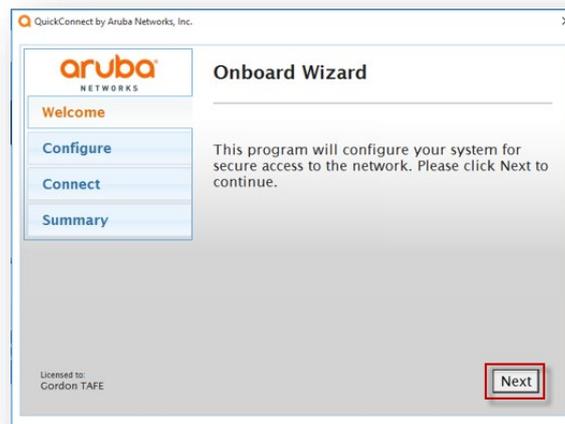

5) Select **Start QuickConnect**.6) Run the downloaded **ArubaQuickConnect.exe** file.7) Select **Run anyway**, if prompted by Windows.

8) Select **Yes** to allow the app to make changes.

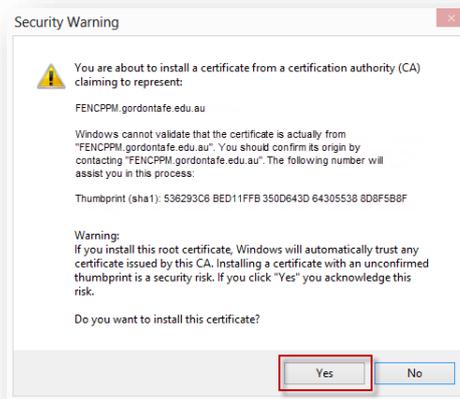

9) The **Aruba Onboard Wizard** will now open. Select **Next**.

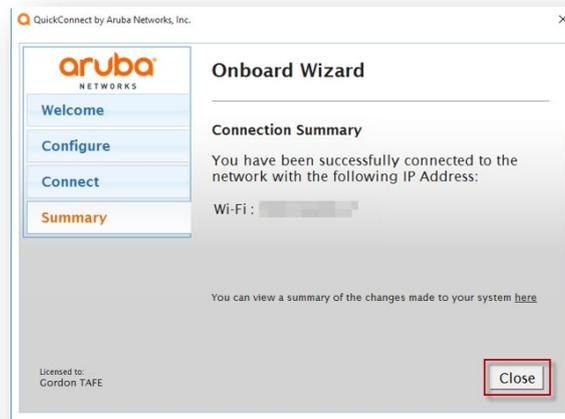

10) Select **Connect**.

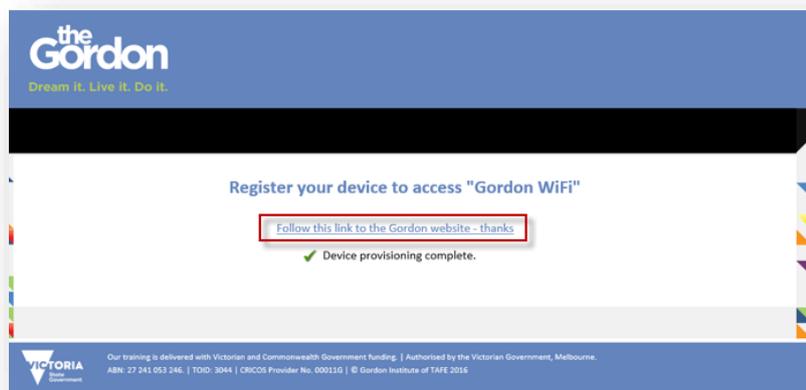

11) Select **Yes** on any **Security Warning** pop ups.

12) Select **Close** when the **Onboard Wizard** is complete and you see the **You have been successfully connect to the network** message.

13) Once you see the **Device provisioning complete** message in your browser, you can select the link to the **Gordon Website**.

Setup is now complete and your device is connected to The Gordon WiFi network.
