

MEM50212 Diploma of Engineering - technical

The Perfect Pathway to University in Geelong

The Diploma of Engineering at The Gordon TAFE is a cost-effective way to commence your engineering career.

Commences February 2021 | Full-time 12-month course

Pathway to University

- Bachelor of Civil Engineering
- Bachelor of Electrical and Electronics Engineering (Honours)
- Bachelor of Mechanical Engineering
- Bachelor of Mechatronics

Studying at The Gordon gives you extensive range options when choosing your preferred Engineering stream. Upon successful completion of your Diploma, you may then be able to undertake a variety of Engineering University Degrees.

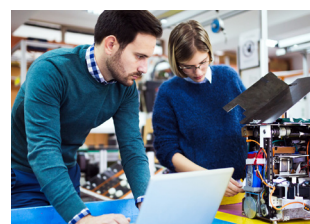

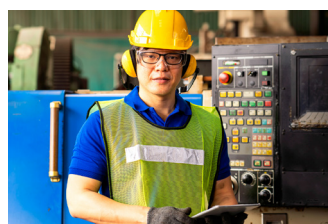

This course will give you practical engineering experience and is designed for those wanting to work as an engineering technician, carrying out tasks such as engineering design and quality control/assurance monitoring.

The course covers Computer Aided Design CAD, drafting, basic fluid power, basic mechanical design, production scheduling, cost estimating and non-destructive testing.

If you see your future developing and designing projects, systems or infrastructure, then this course may provide you with a pathway into many internationally-recognised engineering bachelor degrees.

You will have general course units and then you can stream into one of the following areas:

- Civil
- Electrical and Electronic
- Mechanical
- Mechatronics

The types of assessment you will be expected to undertake to include hands-on projects, written assignments and team projects.
