# Automotive

For car lovers, tinkerers, and those who enjoy building and fixing things with their hands, an automotive or mechanical course may be the first step to turning your passion into a career. As a mechanical student, you will learn the basics and work with emerging technologies, including new hybrid vehicles, when you train with the latest diagnostic equipment. Vehicle body students work with various cars and parts to perfect their skills in our paint and panel workshop, which includes state-of-the-art equipment, tools and paint products.

Mechanical		Possible career outcomes

AUR32220	Certificate III in Automotive Glazing Technology	<i>Automotive glazing technician Windscreen repair technician</i>
AUR32416	Certificate III in Automotive Refinishing Technology ~	<i>Vehicle refinishing technician</i>

I knew the level of teaching at The Gordon was high. The teachers are always willing to put in that extra effort, and they have heaps of vehicles to get hands-on experience. This is giving me the best chance to get into the workplace with the best outcome. With the new hybrids and full electric cars now, I want to learn as much as possible.

JOSHUA RICHARDSON

CERTIFICATE III IN LIGHT VEHICLE MECHANICAL TECHNOLOGY
