Horticulture, Conservation and Land Management

Are you a hands-on person who loves nature, wildlife and the environment? Our suite of environmental programs will equip you with real industry skills, work experience and networks to start your career.

Horticulture
Our horticulture program offers a range of specialities to develop a career in nursery, landscape, turf, or parks and gardens. Our flexible approach means you can choose to study full or part-time, with many programs also offered as apprenticeships. Students work on a range of industry-based projects with local partners including the City of Greater Geelong, Parks Victoria and Barwon Water.

Conservation and Land Management
Gain a solid grounding in environmental and coastal management, and build your industry networks and employment opportunities. Our program has an emphasis on the technical and practical skills for field work, with real industry-based projects providing valuable experience. Our unique location close to many State and National Parks provides the opportunity to work with Parks Victoria and various Landcare groups.

Looking for a short course?
Did you know we also offer short courses? If you want to get a taste before starting a qualification, or even just to learn some new skills in an area of interest or for a hobby then check out the short courses available on our website: thegordon.edu.au/courses/short-courses.
“I’ve always been a passionate golfer and loved the sports and trade. I chose to study with The Gordon as I’d heard good references from previous and current students and really enjoyed the environment there. I enjoyed working with the passionate, experienced and knowledgeable teachers who were driven to watch their students succeed, which then inspired us to do our best. They offered countless opportunities and if taken like I did, can gain real benefits and life changing outcomes.”

Course description

Are you looking to enter the horticulture industry, or perhaps get a taste for the trade before undertaking an apprenticeship? This entry-level horticulture course is designed to give you the core skills and knowledge for the industry, and introduce you to various horticulture specialisations. This is a hands-on course where you’ll learn to recognise plants, undertake planting tasks, use correct pruning techniques, collect plant specimens and develop retail skills relevant to a garden centre environment.

Do you need help with job search strategies, updating your resume, linking with employers, and finding apprenticeship vacancies? Contact The Gordon’s Skills and Jobs Centre.

How often do I attend?
PT - 1 day per week | Friday | 9.00am – 4.00pm.

Possible career outcomes
• Nursery assistant
• Landscape assistant
• Parks and gardens assistant.

Entrance requirements/prerequisites
• Aged 16 or over.
• Any student under the age of 17 must provide a Transition from School form prior to undertaking the course.
• Applicants are expected to have literacy and numeracy skills to at least Year 10 or Australian Core Skills Framework Level 2.
• Apprenticeship and traineeship applicants must be currently employed under a training contract and referred by their employer.

Further study options
• AHC30716 Certificate III in Horticulture.
**AHC21616 Certificate II in Landscaping**

**Course description**
Do you have an interest in the environment, enjoy being outdoors and hands-on? Would you like to further your study to gain a career in the natural resource management industry? This practical, hands-on course provides a solid grounding in environmental and natural resource management with an emphasis on technical skills for field work.

Each study day is different and you will spend a great deal of time outside the classroom. You will be travelling on regular field trips to our fantastic State and National Parks, coastal environments and catchment areas, increasing your employability skills and gaining industry contacts.

This course is a prerequisite for the AHC51116 Diploma of Conservation and Land Management.

**Work placement/industry experience**
The course requires students to undertake 40 hours of work placement and at least 40 hours of volunteering or self-sourced experience.

**How often do I attend?**
FT - 4 days per week | Monday, Tuesday, Wednesday and Thursday | 9.00am - 4.00pm.

**Possible career outcomes**
- Revegetation officer
- Park ranger
- Ecotourism officer
- Catchment management officer
- Landcare coordinator
- Flora and fauna management officer
- Fire management officer
- Community engagement officer.

**Entrance requirements/prerequisites**
- Applicants must be aged 17 or over.
- Applicants are expected to hold a Certificate III in Conservation and Land Management, or possess relevant industry experience and post-trade skills.
- Applicants are expected to have literacy and numeracy skills to at least Year 11 or Australian Core Skills Framework Level 3.

**Further study options**
- AHC51116 Diploma of Conservation and Land Management.
AHC51116 Diploma of Conservation and Land Management

Intakes | Campus | Attendance | Duration
--- | --- | --- | ---
February | East Geelong Campus | Classroom Day | Full-time: 2 yrs

Course description
Do you have an interest in the environment, enjoy being outdoors and hands-on? This course will provide you with specialised knowledge of natural resource management, with an emphasis on technical and practical skills. You will learn about natural area restoration, catchment and wildlife management, plant and animal identification, community engagement, fire management, survey techniques, mapping, sustainable land use and pest management.

You will benefit from our location close to many State and National Parks, coastal environments and catchment areas, which are used regularly for field work. These field trips also provide the opportunity to increase your employability skills and gain industry contacts.

Work placement/industry experience
During the course, you will be required to undertake a minimum of 120 hours of industry experience. This is made up of 40 hours of structured placement, and at least 80 hours of volunteering or self-sourced experience.

How often do I attend?
FT - 3 days per week | Tuesday, Wednesday and Thursday | 9.00am - 4.00pm.

Possible career outcomes
• Park ranger
• Landcare project officer
• Catchment or natural resource management officer
• Fire management officer
• Ecotourism
• Flora and fauna management
• Conservation team member.

Entrance requirements/prerequisites:
• Applicants must be aged 17 years and over.
• To meet the academic requirements for the course, applicants are expected to have literacy and numeracy skills at Year 11 or Australian Core Skills Framework Level 3.

NOTE: Applicants are required to undertake an independent assessment test to ensure they can satisfactorily attain Australian Core Skills Framework Level 3 in both reading and numeracy to apply for a VET Student Loan.
